Col. Nápoles, Mexico City, México

SUMMARY

.NET Software Engineer with 8+ years building and scaling backend services and REST APIs across enterprise and fullstack environments. Experienced across the complete SDLC, from architecture and third-party integrations to production deployment and mentoring. Comfortable working fullstack with React and continually expanding into modern JavaScript/TypeScript tooling through independent projects.

EXPERIENCE

Backend .NET Developer · Globant

Aug 2023 – Dec 2025

Buenos Aires

- Built and maintained scalable backend services and REST APIs with .NET Framework and .NET Core, supporting high-traffic enterprise applications.
- Partnered with cross-functional teams to define requirements and consistently shipped features on schedule.
- Diagnosed and resolved performance bottlenecks, improving response times and overall system reliability.
- Led code reviews and mentored peers, building a culture of quality and continuous improvement.

Fullstack .NET Developer · UADE

Oct 2022 – Aug 2023

Buenos Aires

- Designed, developed, and deployed fullstack web applications using .NET and modern frontend frameworks.
- Translated complex business requirements into robust technical solutions.
- Engineered secure database schemas and data-access layers to ensure data integrity across all services.
- Delivered ongoing UX improvements that boosted user satisfaction and reduced support load.

Fullstack .NET Developer · Soulit

May 2017 – Sep 2022

Buenos Aires

- Architected and delivered fullstack solutions for a diverse portfolio of business applications, owning features end-to-end.
- Integrated third-party services and payment APIs, expanding platform capabilities and opening new revenue streams.
- Managed the complete SDLC — from requirements and architecture through QA and production deployment.
- Led migration of legacy systems to modern .NET environments, significantly reducing technical debt.

SKILLS

Languages & Frameworks: C#, .NET Framework, .NET Core, ASP.NET Core, JavaScript, TypeScript, React

Backend & APIs: REST API design, Entity Framework, SOLID principles, design patterns

Databases: SQL Server, relational database design, secure data-access layers

Tools & Practices: Git, Agile/Scrum, unit & integration testing, CI/CD, code review, SDLC ownership

EDUCATION

Bachelor of Science in Computer Engineering · Universidad del Salvador (USAL)

Jan 2010 – Jul 2021

Buenos Aires, Argentina

LANGUAGES

English — C2 Advanced **Spanish** — Native
